

Human Tissue Act statement

Biocrates kit products are provided with quality control samples to ensure valid and reliable results. The lyophilized quality control material is based, depending on the kit product, either on plasma or serum which are obtained from BioIVT (<https://www.bioivt.com/>). BioIVT is licensed by the United Kingdom Human Tissue Authority:

- HTA Hub License Unit 2 Royston
- HTA Satellite License Unit 6 Royston
- HTA Satellite License Burgess Hill

The licenses are attached.
